DORMAN HYBRID BATTERIES

587-001

Toyota Prius 2009-04

FULLY REDESIGNED AND UPGRADED FOR GREATER RELIABILITY

Dorman has completely overhauled our process for remanufacturing hybrid batteries to dramatically improve reliability and longevity.

We expanded criteria, and stricter tolerances for cell acceptance for use in a Dorman battery, and our multi-dimensional process ensures superior cell balancing and matching to programmatically building a more reliable, better performing battery beyond the simple grading and pairing by resistance techniques commonly used in the industry.
