O'REILLY AW HYDRAULIC OIL

DESCRIPTION AND APPLICATIONS:

O'Reilly AW Hydraulic Oils are economical hydraulic oils developed as a general purpose anti-wear, rust, corrosion, and oxidation inhibited oil, suitable for use where service requirements are normal to moderate and long-term heavy-duty protection is not critical. This oil is formulated with high quality, refined base stocks and select additives to provide wear protection and anti-foam properties. **O'Reilly AW Hydraulic Oils** are not formulated to contain line flush or used oil when manufactured.

FEATURES/BENEFITS:

- Good anti-foam protection
- Economical in older systems that frequently use oil
- Great rust and corrosion protection

APPLICATIONS:

O'Reilly AW Hydraulic Oils are recommended for use in hydraulic systems utilizing radial or axial piston, vane, gear and other type pumps, where quality anti-wear hydraulic oil is required by equipment manufacturers.
